MINISTRY OF COMMERCE (SHRI P CHIDAMBARAM) : (a) and (b) On 26th April, 1991, the United States Trade Representative (USTR) designated India as a priority foreign country under the Special 301 provisions of the US trade legislation on grounds of perceived deficiencies in India's Patent law, trademark and copyright regimes and the enforcement of intellectual property law. The United States also represented that access for US motion pictures was restricted through quotas, fees and other barriers. The USTR has to make a determination by 26 February, 1992 on whether in terms of its law such acts, policies and practices are unreasonable and burden or restrict US commerce, and, if so, what responsive action should be taken by the United States.

Government are satisfied that our laws relating to trademarks and copyright, together with some amendments proposed to the copyright Act are adequate. A decision has also been taken to improve market access for motion pictures and videos. As far as the issue of patents is concerned, attention of the United States has been drawn to the fact that this is the subject of multilateral negotiations, which have yet to be concluded. Govt, of India has engaged in bilateral consultations with the United States in order, to dissuade them from taking any unilateral retaliatory action.
